STATS® Interlaboratory Quality Control Program

STATS Due Date Schedule

STATS has monthly due dates for all products. Data may be submitted at any time during the month; however, data received after the due date will be held and processed the following month. Data is processed throughout the dating of each lot and will also be processed up to 3 months past the lot's expiration date.

Data Submission

Data is submitted by uploading instrument files into the *STATS*-Link® application online.
